

Aim: Configure IP SLA tracking and path control topology.

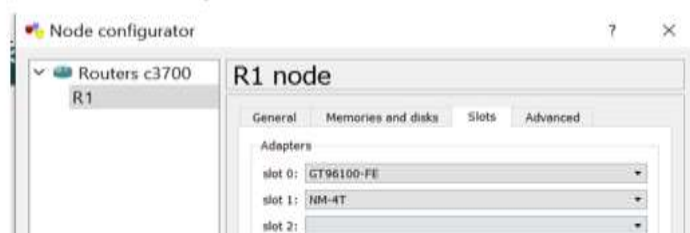

Take 3 routers -> Configure -> slots -> NM-4T

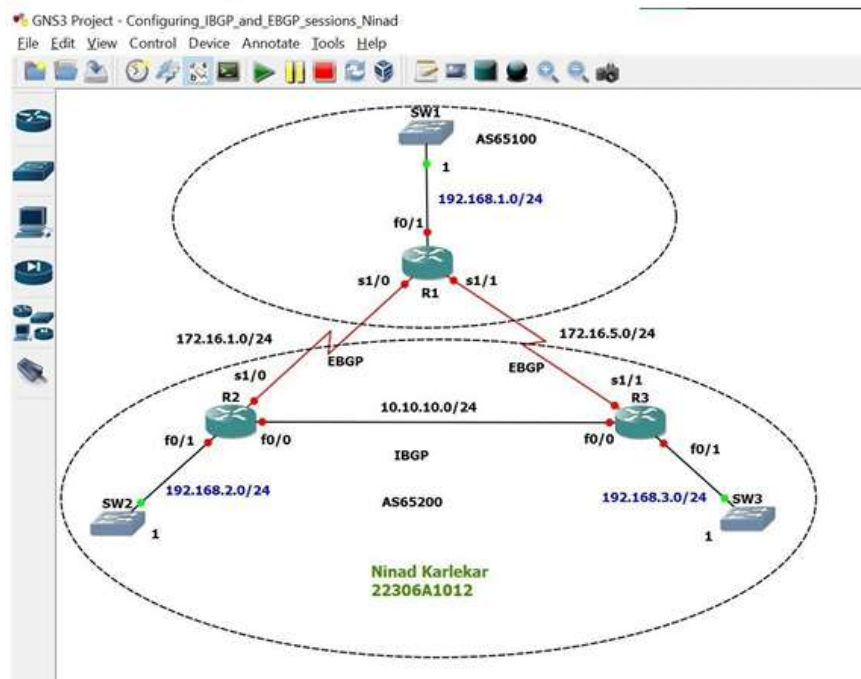

Aim: Implementation of BGP using AS_path attribute.

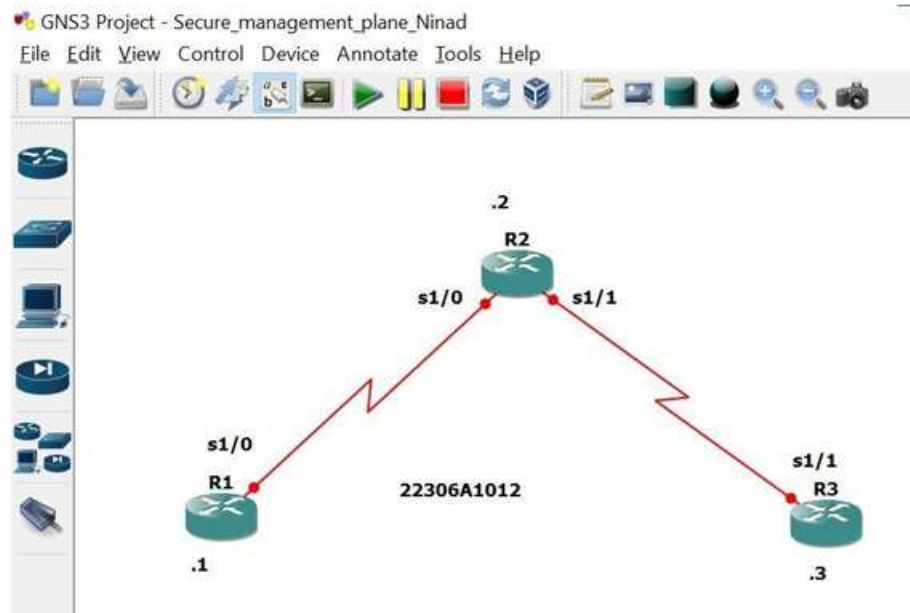

Take 3 routers -> Configure -> slots -> NM-4T

Aim: Configuring IBGP and EBGP sessions.

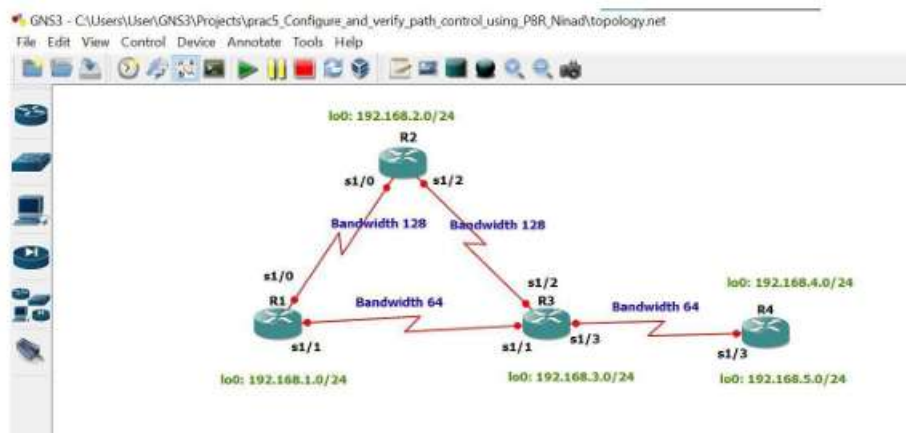

Aim: Secure management plane.

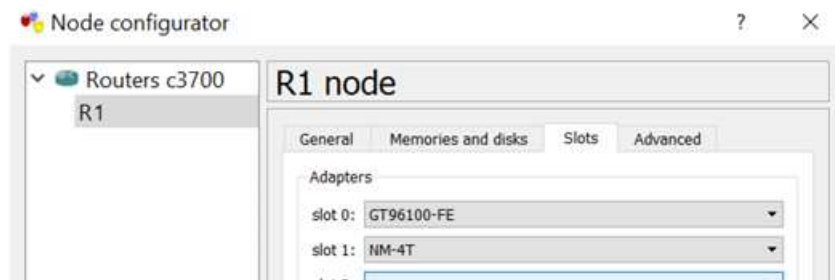

Take 3 routers -> Configure -> slots -> NM-4T

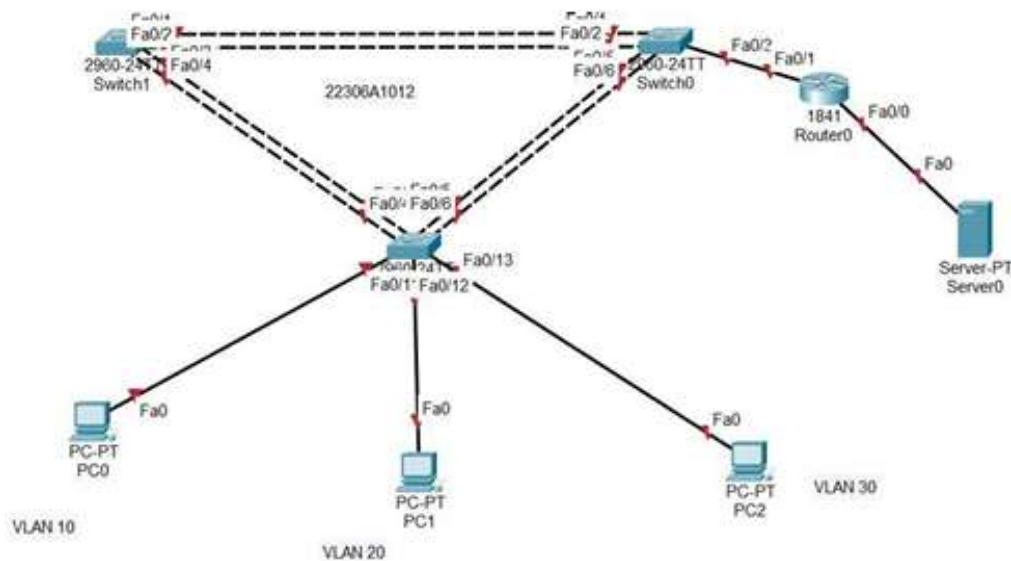

Aim: Configure and verify path control using PBR (Policy Based Routing).

Take 4 routers -> Configure -> slots -> NM-4T

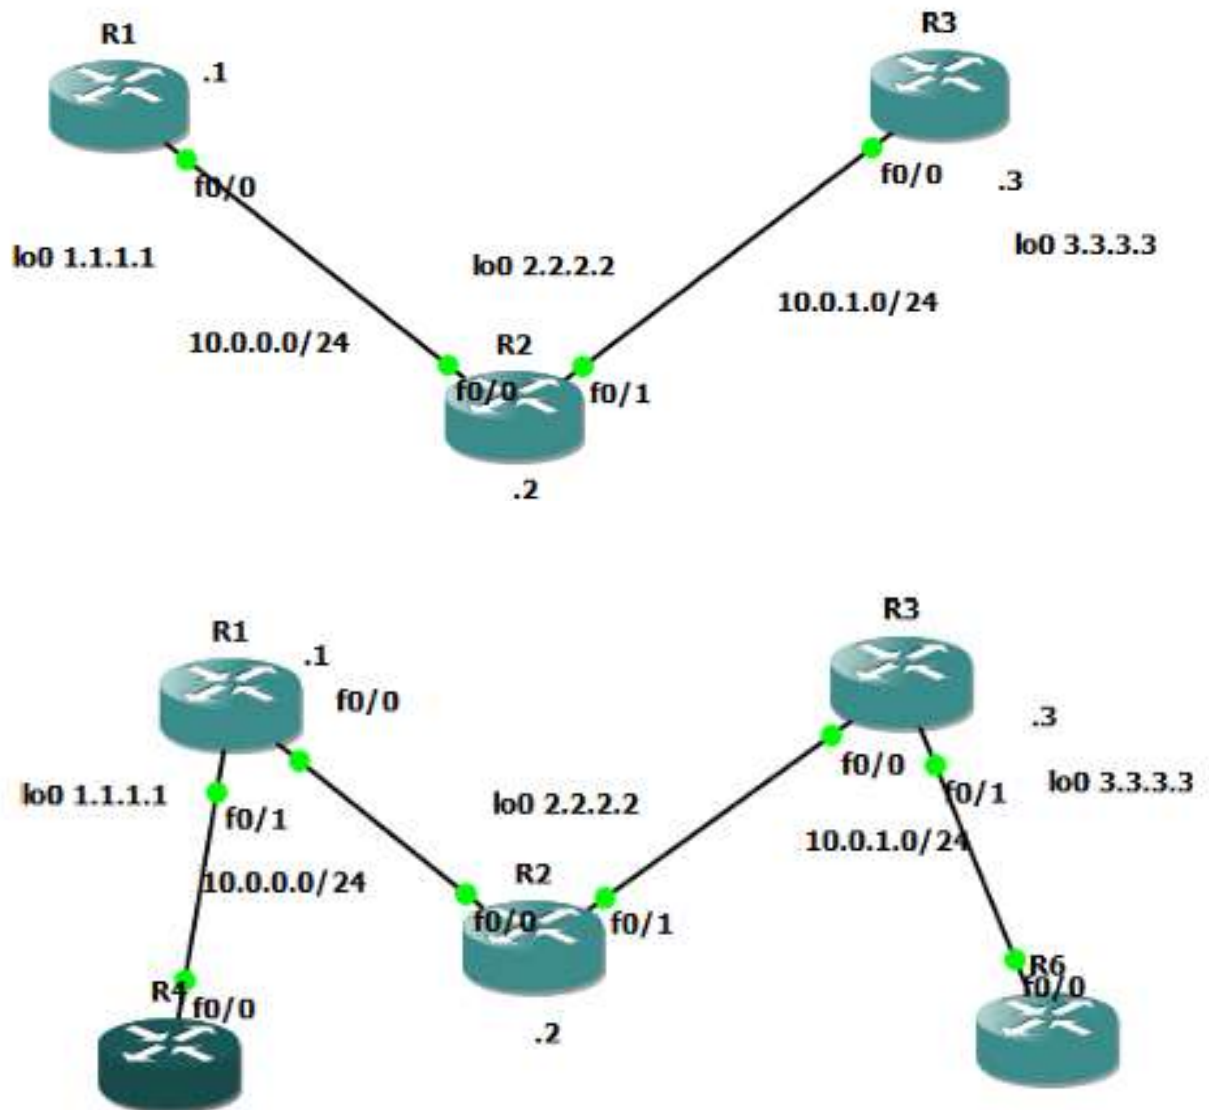

Aim: Demonstrate inter vlan routing.

Aim: Simulating MP LS environment.

Topology:

Aim: Simulating VRF (Virtual Routing and Forwarding).

Topology:
